CEMETERY DETAIL;October 1st, 1943.

On August 31st, 1943 we received from Rikers Island a group of twenty Indeterminate Penitentiary Inmates assigned to the Cemetery Detail for the purpose of burying the unclaimed and unidentified bodies of all people who died in the City of New York.

A special number of these Inmates are assigned to disinter the bodies upon an authorization order properly signed and under the supervision of a Captain or Correction Officer.

The activities of this detail for the month of September are as follows.

RECOMMENDATIONS:

CEMETERY
HARTS ISLAND:

Following is listed the recommendations, which I
made to you on a previous date.

NO 1.

Removal of all weeds from the cemetery grounds
and the planting of grass.

NO 2.

Removal of garbage dump adjacent to cemetery.

NO 3.

Building of a wooden house, to house inmates
during inclement weather and for the purpose
of feeding them.

NO 4.

Building of a fence and appropriate entrance
to the cemetery.

MONTHLY REPORT FOR DECEMBER, 1943

Cemetery Details

Since the inception of this detail on Aug 31st, 1943 at Harlem Prison, the original Cemetery inmates allotted to us at that time, we have at the present writing a total of fourteen. This is an insufficient number to take full care of the necessary work of interring and disinterring of the unidentified and unidentified bodies of persons who died in the City of New York.

It is urgently requested that an additional six inmates be transferred to this detail from Hiram Island in order to continue this vital and necessary work.

Taking into consideration the amount of work performed by this group, daily digging graves, interring, disinterring and keeping the grounds in a state of respectability. You can readily understand that fourteen inmates are insufficient to properly maintain the standards as heretofore.

CEMETERY REPORT

CEMETERY DETAIL:

Since the inception of the cemetery detail at Harlem Prison on Aug 31st, 1943: We, have at the present writing, a total of thirteen Inmates of the original twenty allocated to us by the Commissioner. This number of Inmates is insufficient to take care of the needs of this detail, considering the vast and vital amount of work that is performed by this group, mainly; digging of trenches, interring and disterring of the City's dead, draining of and piping the trenches for the purpose of drainage, keeping of records and in general keeping the cemetery in a state of respectability.

It is therefore, urgently requested that an additional six Inmates be transferred to this detail from Rikers Island in order to continue the exceptionally good work that had been done in the past, with a full quota of Inmate help and every effort is being made with the present number of Inmates by Captain Fitzpatrick and the two Officers to keep this MX standard of quality above par or as good with the number on hand.

It is inconceivable to believe the amount of work performed by this small group and it is only through the tireless efforts of these Officers that reflects such credit on the Department of Correction. I have often wondered, what would be accomplished if they had twice the number of Inmates, in all probability they could revamp the entire cemetery.
